Mission

To provide CIOs and IT decision-makers with an opportunity to network, share common challenges, and work together toward solutions to benefit the Greater Louisville region business and technology community.

Highlights

The CIO Roundtable held six programs on various topics:

- *Integration and Mergers*
- *Voice Over IP*
- *Offshore Development*
- *Disaster Recovery*
- *Leading Transformational Change in Our Organizations*
- *Server Virtualization*

Srithal Bellary, SHPS, Inc.

Scott Alsup, Steel Technologies

Barry L. Hayes, Trover Solutions

Member Spotlight

"The CIO Roundtable has seen many changes this year. It continues its track record of expanding membership and wide-ranging discussion topics. The group has focused on numerous topics from Disaster Recovery to Offshore outsourcing, and from Voice Over IP (VOIP) to Internet II. Two new venues were added to the list of sites visited by the membership and we plan to expand even more in 2008.

The group explores technical issues, both successes and pitfalls, in an open forum and offers members the ability to share ideas and ask advice from the rest of the members, without recourse, and in a friendly and helpful setting."

-Jeff Biggs
Vice President, Peak 10

2007 Co-Chairs

Jeff Biggs, Peak 10
Wendy Welsh, E.ON - U.S.
