

## CUSTOMIZATION TO MEET YOUR COMPANY'S NEEDS

- With eight facilities across Kentucky, you choose where to locate
- Choose from hundreds of eligible inmates, carefully prescreened for skill set and risk appropriateness
- Sites up to 20,000 sq. ft. available
- Space can be altered to your specs
- You choose the level of technical and managerial assistance from KCI

Partnering with KCI not only boosts your company's bottom line, it also helps Kentucky. Inmates learn skills so they're more likely to get a job and become productive, taxpaying citizens upon re-entry. Everybody wins!

## WE ARE STRUCTURED FOR YOUR SUCCESS

KCI is here to assist you through every step in the process, from concept through project completion.

KENTUCKY CORRECTIONAL  
INDUSTRIES  
1041 Leestown Road  
Frankfort, KY 40601

Looking for skilled  
dependable workers?  
We have a solution!

**THINK KENTUCKY**  
MAKING BUSINESS STRONG. CUTTING RED TAPE.

## THE SOLUTION? PRISON INMATES

You may not have considered this option, but changes to Kentucky's law have made it easier than ever to grow your business.

Through a unique program with Kentucky Correctional Industries called the Prison Industry Enhancement Certification Program (PIECP), businesses have a safe, secure and readily available flow of workers.

### Partnering with Kentucky Correctional Industries offers many benefits:

- You don't have to search for workers. We have them. They're ready and eager, and come at a competitive cost.
- Inmates acquire marketable work skills, enhancing their chances for success upon release
- Inmates' wages improve support for their dependents and compensation for crime victims
- Safeguards ensure safety and security of your staff and suppliers

## HOW WE CAN PUT A PIECP PARTNERSHIP TO WORK FOR YOU

### CHOOSE FROM THREE WORK MANAGEMENT STRUCTURES

**Customer Model** KCI handles all production and simply sells you the finished goods

**Manpower Model** You oversee production and pay KCI a fee to manage labor and overhead

**Employer Model** You run the project and hire, fire, train and pay inmate workers, using KCI's space and labor pool

## WHAT YOU SHOULD KNOW

Inmates must be paid commensurate with prevailing wage for similar work.

You must certify that : 1) you will not displace workers in the private sector; 2) there's not already a labor surplus in the relevant trade, and 3) you will not impair existing contracts.

KCI must notify local industry and organized labor, comply with environmental laws and obtain written assurances from inmates that their participation is voluntary.

Projects must be approved by the U.S. Bureau of Justice Assistance

*Uniformed security staff are employed in all of our facilities and are directly responsible for maintaining safety and security.*

## A PROVEN TRACK RECORD

Established in 1954, Kentucky Correctional Industries has a long track record of providing the commonwealth with high-quality goods and services, ranging from janitorial supplies and welding to clothing and furniture.

Thanks to justice reforms signed into law by Gov. Matt Bevin in 2017, our program is now certified by the federal government, allowing products made with inmate labor to be sold outside Kentucky for the first time. This means we can advance your business like never before.
