

GLI Public Policy Issue Advisory Committees

As the "voice of business" in our community, GLI serves as an advocate for policies and legislation that will keep our region and state economically competitive. The purpose of the Public Policy Issue Advisory Committees is to examine a wide range of issues and determine the top advocacy priorities for Greater Louisville businesses.

Bi-State Issues Advisory Committee

For Greater Louisville's economy to grow, it must focus on developing the whole region. The Bi-State Issue Advisory Committee examines legislative issues that span Greater Louisville and Southern Indiana and determines the top priorities for GLI's members in the bi-state region when advocating in Indianapolis, Frankfort, or Washington.

Business Competitiveness Advisory Committee

Business competitiveness and economic development are in GLI's DNA and advocating for pro-growth policies is a top priority. The purpose of the Business Competitiveness Advisory Committee is to examine all issues related to economic development, tax, and fiscal policies and determine the top priorities for Greater Louisville businesses.

Business Leaders for Education

Education and workforce development are critical to a thriving business community. With a workforce that aligns with business needs and an educational system that positions young adults for success, business operations will be enhanced. The purpose of the Business Leaders in Education (BLE) is to examine all issues related to education and workforce development in order to determine the top priorities that impact Greater Louisville businesses.

Energy & Environment Issues Advisory Committee

Reasonable energy costs is a top competitive advantage for the Greater Louisville region and advocating for reasonable energy and environmental policies is tantamount to the region's success. The purpose of the Environment & Energy Issue Advisory Committee is to examine all issues related to energy and the environment and determine the top priorities for Greater Louisville businesses.

Health Care Issue Advisory Committee

As a burgeoning hub for health care and aging care, ensuring smart health care policies is critical to growing one of Greater Louisville's signature industries. The purpose of the Health Care Issue Advisory Committee is to examine all issues related to health care and determine the top priorities for Greater Louisville businesses.

Transportation & Infrastructure Issue Advisory Committee

As a hub for manufacturing and distribution, it is imperative that Greater Louisville's regional transportation infrastructure is world-class. The purpose of the Transportation Issue Advisory Committee is to examine all issues related to transportation and infrastructure and determine the top priorities for Greater Louisville businesses.
